

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

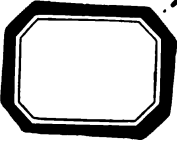

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

FOREWORD.

A Complete Table of California Cases, both State and Federal, is herewith presented for the first time in the history of the State. All possible care has been exercised to the end that this Table of Cases shall be accurate, complete and satisfactory. Each title appearing in the Digest was carefully cut from the galley proofs, pasted on a slip of paper, and these slips carefully checked over by the run-off, to guard against oversight and omissions of either cases or titles to which cited.

Some appreciation of the amount of the labor involved, as well as of the extreme care that had to be exercised, will arise when it is known that there were over 390,000 slips, direct and reverse, from which this Table of Cases is made; that all of these slips were required to be handled three times, and the majority of them seven times, before being sent to the printer, and that seven persons labored at the task.

Arrangement Under the Letters varies somewhat from arrangements usually found in a Table of Cases, and it is thought that this change will materially add to convenience in the use of this Table of Cases. For instance: The "Mc's" are arranged at the beginning of the letter "M," the "O'B's," "O'D's," etc., are arranged at the beginning of the letter "O." "Estate of," "Ex parte," "In re," "Matter of," all follow the name of the decedent or of the party to the suit, and are arranged, in the order given, at the beginning of the particular name of the decedent or the party and before titles in which a "v." occurs. All cases of "People ex rel." are collected under "People," and at the end of that title; i. e., after all titles of simply "People v."

It has been the object to make this Table as nearly absolutely alphabetical as practicable; and to accomplish this object such titles as "City of Oakland," "Mayor of City of Oakland," and the like designation of cities and towns are printed in this Table of Cases, "Oakland, City of," etc.

Geographical Designations in an official title being without intrinsic merit, are generally omitted. Where the Superior Court is made defendant in a proceeding, it is immaterial in what county that court is sitting, and the county is therefore omitted, and the case—in the reverse table—is classified under Superior Court. The Board of Supervisors of any particular county is simply the authorized agent and representative of that county; and where a case is officially entitled "Board of Supervisors of," naming the county, the action is by or against the county, and not by or against the Board of Supervisors as a body or as individuals; for this reason, "Board of Supervisors of" is omitted, and the name of the county alone is given. Other official titles are similarly treated.

This being understood, no confusion can result from the elimination from cumbersome official titles of cases those portions which are purely formal and meritless.

Citations of California Cases in Any and All Annotations in either of the leading series of Selected and Annotated Cases, including the American Decisions,

American Reports, American State Reports, and Annotated Cases (both series), are collected immediately under the title of the case in this Table of Cases, and following the black-faced abbreviation "**Anno.**" This, it is thought, will prove an added valuable feature, because of the fact that it will at once point the way to a large body of cases, collected by trained searchers, which discuss the particular point of law. It was found impracticable to indicate, in any instance, the particular law point to which the case was cited; but this omission will in no way impair the value of these added references as a "working tool" for the industrious lawyer.

California Cases Carried to United States Supreme Court and Federal Courts have been collected in a supplemental Table of Cases, for the convenience of such members of the Bench and Bar as may wish to trace the history of any particular California State case, and to ascertain just what disposition was made of it in the United States Supreme Court.

JAMES M. KERR.

Los Angeles, Cal., April, 1917.

TABLE OF CASES DIGESTED.

The abbreviation "Anno." following the digest references to the case refers to "Annotation" in the American Decisions, American Reports, American State Reports and Annotated Cases (American and English) wherein the case has been thoroughly reviewed in the light of other authorities not only in California but also in other jurisdictions.

For a separate list of California Cases decided in the United States Supreme Court and Federal Courts, see Supplemental Table.
